

Helps for Acquiring a Quadriciser

The current cost for our Standard Adult Quadriciser is \$20,245 (with IPAD included) + Shipping or \$19,495 (without IPAD) + Shipping. These prices reflect a \$3,000 discount that we have in place for a limited time. We know that the Quadriciser, like most medical or otherwise reliable and well-built equipment, can be costly. With that understanding, the following information may be helpful in determining how you can get a Quadriciser for personal use.

Insurance:

Because of the amount of time, effort, and potential delay this method may require, many pay for the Quadriciser using one or more of the alternative methods that are further addressed in this document and then continue to pursue the potential of reimbursement through their Insurance provider. This allows the person needing the benefit of the Quadriciser to not lose precious time and possibly further decline in their health or mobility while otherwise dealing with the bureaucracy often encountered in the insurance business.

If you desire to pursue insurance coverage, you will need to communicate between your Doctor and your Insurance providers as Insurance coverage may or may not be possible. Quadriciser Corporation cannot guarantee that your insurance will provide any reimbursement. Should you desire to pursue this possibility, you will most likely require a Prescription and/or a Letter of Medical Necessity from your Doctor. A detailed write up of your diagnosis from your Doctor may be needed as well. To help with this, Quadriciser can provide a sample Letter of Medical Necessity as well as Capability Statement upon request. While we cannot pursue Insurance coverage directly for you, we will be glad to assist you and your Doctor as needed.

Grants: While the following list is only a small sampling of grants and funds and may be helpful, there are many more grant opportunities that may be found if you care to invest time to research on the Internet.

[The Disabled Children's Relief Fund](#) is a national, non-profit organization that provides cash grants for disabled children, with preference given to families who do not have health insurance. Grants are provided for assistive devices, equipment, and rehabilitative services, as well as for innovative arts and humanitarian services for children with disabilities.

[The empowerment fund](#) provides resources and inspiration to those who suffer a life-altering injury, such as a spinal cord injury, traumatic brain injury, amputation or other mobility-limiting injuries that occurred in an athlete's lifetime. The resources and inspiration we provide come in the form of board-approved grant funding paid to service providers in nine funding categories: living expenses, insurance, health, travel, high fives healing network, adaptive equipment, winter equipment, and "stoke" (positive energy, outlook, attitude).

[Triumph Foundation](#) sponsors an individual's recovery from spinal cord injury by determining needs and helping to find solutions. The Triumph Foundation teams up with an individual to raise funds for specific items or services through its Fundraising Partnership; they have an Equipment & Supply Exchange program where they help find a home for old, used, and extra equipment & supplies and arrange for it to be given to people who are in need; they loan items to people to increase independence and functionality; and they provide financial assistance through their Keep Moving Forward Grant program.

[Dreams of Recovery](#) strives to help individuals receive the therapy they so desperately need, as well as the necessary therapeutic equipment to promote nerve regeneration and gain muscle mass.

[The Road 2 Recovery Foundation](#) provides professional athletes with financial, motivational, emotional, and spiritual support if they sustain career-ending injuries, such as spinal cord injuries or brain injuries.

[The Bryon Riesch Paralysis Foundation](#) provides charitable grants up to \$10,000 to eligible individuals with neurological disorders for specific modifications or equipment.

[The Harry Gregg Foundation \(HGF\)](#) provides small grants to low and moderate income New Hampshire residents with disabilities for products and services not funded elsewhere. Home and vehicle modifications, specialized equipment, computers, recreation and education – these are the kinds of things that enhance independence, improve quality of life and are attainable with HGF funds.

It is the mission of the [Challenged Athletes Foundation \(CAF\)](#) to provide opportunities and support to people with physical challenges, so they can pursue active lifestyles through physical fitness and competitive athletics. The Access for Athletes Grant Program helps athletes overcome financial impediments by providing funding grants for equipment, training, coaching and competition costs.

The mission of the [IM ABLE Foundation](#) is to remove obstacles that prevent people affected by disabilities from being physically active by providing grants, resources, fitness opportunities and motivation.

[NAIDW](#) is a nationally recognized 501 (c) (3) public charity whose purpose is to provide unlimited resources, support, guidance and short-term financial assistance to injured & disabled workers and their families as a result of injury, illness, pain or disability.

[The Semper Fi Fund](#) provides immediate financial assistance and lifetime support to post-9/11 wounded, critically ill and injured members of all branches of the U.S. Armed Forces, and their families, ensuring that they have the resources they need during their recovery and transition back to their communities. Since its establishment in 2004, the Semper Fi Fund has issued more than 140,000 grants, totaling more than \$150 million in assistance to over 18,700 of our heroes and their families.

The [Will2Walk Foundation](#) has a mission to keep people with spinal cord injury (SCI) active, fit, and independent. They aim to inspire people with SCI to achieve the highest quality of life possible, keeping a “will2walk” through life with the challenges SCI presents to individuals, families and communities. Their main activities involve education, community outreach, fundraising, and supporting people with SCI.

Fundraising:

The [Help Hope Live Catastrophic Injury Campaign](#) helps people who have had a catastrophic injury, such as a spinal cord injury or traumatic brain injury, raise funds to cover unmet health needs, including rehab, home health, medical, accessibility, and automotive needs.

[GoFundMe Medical Fundrasing](#) is a crowdfunding platform with many successful campaigns of fundraising for medical expenses and other causes. Example campaigns: [John-Paul](#), [Jacob](#), [Jeremiah](#)

TBI/ABI Medicaid Home and Community-Based (HCBS) waiver:

Most services covered under TBI/ABI HCBS Waiver programs include durable medical equipment such as the Quadriciser among many other possibilities. In many States, a non-Medicaid agency may be responsible for administering the program aspects of the waiver program, while the Medicaid agency is responsible for submitting the waiver and general oversight.

The Document referenced by the URL below is an overview of Traumatic Brain Injury/Acquired Brain Injury (TBI/ABI) Medicaid Home and Community-Based (HCBS) waiver programs administered by 21 States, as well as other incentives for States to offer community long-term services supports and services (LTSS) for individuals with TBI.

Financing:

Home Equity and Medical Loans

Many of our users have purchased their Quadriciser with either a medical loan or a home equity loan with their local bank or credit union. One source for a medical loan is through SunTrust Bank. LightStream is a financing option that is affiliated with SunTrust Bank. You can complete the application online and the funds can be available in a few days or in a few hours. You can either call them at 866-635-1330 or apply on-line using this link below:
